

NFC Academy Lesson Planner 1st Grade Math Units 1 – 5

This NFC Academy Teacher Guide is designed to keep homeschool families on track for a completion during a school year program of approximately 180 days. Schedules may vary and the parent may adjust the teaching assignments as required by the home schedule, but all work must be completed. Information in this teacher guide comprises five units of study in a course and most units have 10 units for a full year. The parent may record the date each unit is completed or may plan out the unit's work and record the date to be completed. This Teacher Guide is a tool to assist the parent in meeting the educational goals for their child.

The following explanations to this Teacher Guide:

Day: The day of your school year from start date. It should take you 15-18 days to complete a unit and with 10 units per subject that results in the 180 days of the program.

Date to Complete: That can be used to record the date you completed the study, or may be best used by establishing the date for each lesson to be completed. You may do more than one lesson per day when you carry over a lesson to the next day's assignment, and make adjustments to ensure that your child has covered the material adequately. Flexibility can be made to fit your schedule, but most of the time a regular routine helps ensure that you stay on a track to finish as you planned.

Teacher Notes: Refers to the page number from the Teacher's Curriculum Guide that was sent to you. This is where you have the information needed to conduct each lesson.

Student LIFEPAC: The student work book that will correspond to the information from the Teacher Notes.

Worksheet: Refers to the worksheet for the assigned lesson located in the back of the Teacher's Guide. Page number is listed for the worksheet. Check to ensure that you use the worksheet for the page of the lesson in the Student LIFEPAC and Teacher's Guide lesson of the day

Math: Refers to the ten units of the LIFEPAC math work texts that offer step-by-step, student-paced lessons covering topics like adding, subtracting, skip-counting, story problems, shapes, charts, graphs, operation symbols, fractions, time, place value, measurements, number order and more. Each work text includes fun illustrations, a variety of age-appropriate math exercises and hands-on activities. In addition,

each LIFEPAK unit includes reviews, self-tests and one removable, teacher-administered unit test to help students remember important math concepts.

First Grade Math Unit 3
