

Daily Study Schedule

To be successful in home school it is important to realize that while schedules can be very flexible that does not diminish the required time which must be spent to complete the course of study. Having a schedule you follow is essential to completing the course successfully. Yes, the schedule can be very flexible, but the hours needed to complete the course will need to be accounted for in your schedule.

Option A – A typical full schedule

Time	TBA	TBA	TBA	TBA	TBA
Subject	Bible	Math	Language	Science	History

It is important to note that what is called "homework" in a traditional school may require you to spend additional time outside of the normal schedule you have established.

Option B - Focus on subjects more time and rotating days.

Day	Monday and Wednesday and Friday		
Time	TBA	TBA	TBA
Subject	Math	Language	Bible
Day	Tuesday and Thursday		
Time	TBA	TBA	
Subject	Science	History	

Option C: Taking subjects by the semester could be referred to as a Block Schedule.

For example, you may decide you work better by focusing on several subjects each semester and completing them and then next semester focusing on several other subjects. If this is an option you would want to consider you would need to discuss with our Guidance Director in High School or the Principal in Elementary and Middle School. Your schedule could look like the following (keep in mind unless unusual circumstance exists we would want the student to have Bible over both semesters):

First Semester: Math, History, and Bible

Second Semester: Language, Science, and Bible.

Important

You may adjust the days and/or hours to better fit your schedule, keeping in mind that spending the hours in the subject is necessary each week to finish the course during your designated semester. It is important to note that what is called "homework" in a traditional school may require you to spend additional time outside of the normal schedule you have established.

A part-time student may make additional changes.
