## Stanford Achievement Make-Up Tests For

May 1, 2014

***Students who missed one or more tests may take the missed test(s) at the scheduled make-up time(s) below. Students must first register with Mrs. Tabettha Slemp by e-mailing her at [tabethaslemp@nflchurch.com](mailto:tabethaslemp@nflchurch.com). Students may not retake a test already completed. Students who missed a test only take the test they missed. TEST SESSION NUMBERS will be e-mailed on the day of the test directly to those students registered.***

<u>Test</u>	<u>Session Number</u>
11:00 am Math (grades 9-11)	224954-89
11:00 am Math Problem Solving (grades 3-8)	224957-83

### Instructions/Reminders:

- Local Proctor – have the printed directions for the correct test to read to students to begin the test and then monitor the testing session.
- Using the Pearson Browser – sign-on using the correct Test Session Number when requested and your name and birthdate when requested.
- Doing the “Tutorial” that is available is your option for additional practice using the test features.
- The Academy Test Center must approve the student to move forward once they are signed completely into the test. This will take 15 minutes or longer. The Academy Test Center cannot approve a student to test if we do not have a NFC Homeschool Test Form on file showing a successful system check and listing the local proctor – the local proctor can be the parent, another relative or friend.
- There is no time limit, but the longest test will take typically less than an hour with some of the shorter tests taking thirty minutes or less.
- Parents and students – relax – it is just one test during a school year.
- If you have questions contact the Academy Test Center at [nfcacademy@nflchurch.com](mailto:nfcacademy@nflchurch.com) or 1-850-385-7186 ext. 139.
