Dear Academy Parents and Students:

Welcome to NFC Academy...a virtual High School program that is a fully accredited Christian high school offering students a college preparatory program in grades 9-12.

Our program offers both the full-time and part-time student a program to achieve their educational goals. Our full-time students will have our Guidance Department working with them as they prepare for graduation. NFC Academy is a program that embraces innovation and new technology for educational programs. Some students find the traditional school program is best for their needs, but a growing number of students find the experience of an academic program online is their best learning environment.

While as an NFC Academy student you may find yourself being separated by distance from other online learners and your teachers, you should always find yourself connected with peer learners and teachers in the NFC Academy using the various technologies and programs that connect you together.

This learning environment does require personal self-discipline, combined with consistent work habits, and regular participation in course assignments and collaborative work with your teachers on your assignments is important for success. The courses and learning model is carefully structured to ensure your learning of the materials, preparing you for college and your career.

Welcome to the NFC Academy family.

NFC Academy Administration and Teachers

General Information

Accreditation

NFC Academy is registered with the State of Florida Department of Education. NFC Academy is fully accredited by the Florida Association of Christian Colleges and Schools (FACCS) which is a member of the National Council for Private School Accreditation. NFC Academy is fully accredited by the regional accrediting organization, The Middle States Commission on Elementary and Secondary Schools.

Bible

Bible study is recognized at NFC Academy as of fundamental importance and is a required subject. The study of the Bible augments the study of English, history, geography, and science as well as the other academic subjects. Without the knowledge of biblical truth, a student cannot be considered educated. The Bible gives direction for this life, and is the only hope for the life to come. No other book can enrich the minds and hearts of men as "The Book of books."

Knowledge of the Bible is one of the greatest educational assets any man can have. Resulting from its study are the important values of morality and right living. Character development is the most important work of a school. No other course offered in the school affords such great opportunities for laying the foundation for Christian character as the Bible course. Knowledge is important, but of more importance is the life that displays what has been learned.

Because of the importance NFC Academy places on the study of the Bible, a student who fails Bible two consecutive semesters will not be permitted to return the next semester.

Calling the Academy - Automated Answering

NFC Academy has an automated answering service that will permit you to go directly to the department you are calling, or you may dial the direct number to a particular office as noted in various publications. Frequently called offices and their extension numbers are located on page 4 of this handbook. When you call the Academy and the automated attendant answers, you may immediately dial in the extension of the office you are calling and your call will be transferred to that department. If you do not know the extension of the office you need, the attendant will give you selections to make that will forward your call to the correct office.

Change of Address or Telephone Number

Parents should notify the Academy immediately of any change of address, email, or telephone number (home or business). Email is the primary method of communication and the internet is necessary to access on-line complete records through RenWeb. It is important that we have this information so parents have timely access to the educational program and the administrative software that allows access to their accounting information, make payments, and to view completed semester grades and transcripts.

Change of Information

When the parent/guardian has the need to make a change in the students' information, we suggest it is best to go to the NFC Academy web site to make these changes through RenWeb. This assures the accuracy of the information being posted and eliminates the need for you to have available your Personal Identification Number (PIN).

Exceptions

On occasions exceptions to a policy may be made when circumstance(s) warrant it in the view of the administration. An exception made for one on any policy is not an exception for any other on that policy or any other policy. All decisions regarding policies are made by the administration and are final.

General Statement of Policy

NFC Academy retains the right to make changes, amendments, and corrections of the rules and policies of the Academy at any time, with or without prior notice. While NFC Academy is not a campus school, except for those enrolled in the local area and participate in our extra-curricular activities, parents and students should take careful note of the expectations of behavior for Academy students which would be consistent with the Mission, Educational Objectives, and Statement of Faith of NFC Academy. Students, whose behavior which does not meet the expectations in the sole judgment of the administration, may be asked to withdraw from NFC Academy.

Ignitia Parent's Web

You will be given access to view using the Internet your son or daughter's progress using the Ignitia Parent Portal. This allows you to keep track of daily assignments, their due dates, completion dates and grade on the assignment. It is an important tool to help you keep your child working on the pace to complete their work as scheduled. We recommend that parents check progress multiple times each week.

Mission Statement

The mission of NFC Academy is to prepare the leaders of tomorrow by providing a program of academic excellence through Christian education, thereby equipping them to glorify God.

Vision Statement

Using innovative technology guiding future generations to know the truth of God's word and His works, in order to fulfill the will of God for their lives.

Core Values

Nurturing personal growth and development of students.

Family values are integrated in every decision.

Christ-centered curriculum is used to encourage Biblical thinking.

Achieving success when students live out Godly values in their present culture

Educational Philosophy

NFC Academy was founded on the belief in the inerrant, inspired Word of God, the Bible, the only infallible rule of faith and practice. The Academy exists to assist parents in fulfilling God's ultimate purpose of preparing children to enter into and mature within His spiritual family, and to respond to Him with respect and obedience. The school seeks to assist in the personal growth and development of students by providing an education based upon an integrated understanding of biblical principles and academic knowledge. Education with a proper emphasis on the spiritual, mental, social, and physical aspects of life will lead to the balanced

development of the whole person. Please go to www.nflcademy.com and download a complete copy of our Statement of Faith.

Educational Objectives

NFC Academy provides educational programs both to prepare students for entering college to continue their education and to prepare students to enter careers of service in the will of God. These programs seek to transmit and expand knowledge as well as to provide opportunities for research and service. The school will provide the kind of atmosphere which will promote the spiritual, intellectual, social and character development of students. With a clear commitment to academic integrity and excellence, the school will fulfill its mission through the following objectives:

1. *To provide instruction by a competent Christian faculty committed to a quality academic program*
2. *To provide students with an atmosphere which is wholesome, stimulating, and conducive to learning and to serving within the Christian concept*
3. *To provide a balanced emphasis regarding theological beliefs, daily life and conduct, and educational philosophy and practice*
4. *To effectively train young men and women to be servants of Christ in the church and in the world*
5. *To provide students with a solid academic and biblical program that will help them to be leaders in areas of their own choice*
6. *To use an approach to education which addresses the changing technological nature of our society*
7. *To acquaint students with methods of research in order to develop habits of study for a life of intellectual pursuit*
8. *To motivate students to think and communicate clearly, objectively, and creatively*

Faith and Learning

Our curriculum is rooted in a God-centered view of life, allowing students the opportunity to understand themselves and the world around them from a biblical world-view. All truth is found in God. It is found in His creation. Scripture is the basis for faith and practice. The integration of biblical faith and learning is our goal at NFC Academy working with each student.

At NFC Academy, we understand our mission is to teach our students to live wholesome Christian lives in a world that many times is in opposition to a biblical world-view. Further, we communicate to our students that they are created in God's image and blessed with distinctive and individual personalities, endowed with special talents for a special purpose.

NFC Academy Learner Characteristics

Engaged Learners

- Disciplined to engage in learning daily
- Understands their learning strengths and areas to improve
- Utilizes multiple sources of information to expand learning
- Values the process of learning as preparing and expanding lifelong learning concept

Critical Thinkers

- Combines and synthesizes information from learning threads to a learning concept
- Effectively translates learning into values, understanding, and processes for higher learning
- Uses the concept of media and technology to enhance learning and articulate life-long living priorities

Collaborative Workers

- Is able to work with peer learners through the Moodle Discussion Board to arrive at successful work products while dealing with both consensus and differing views

Biblical Worldview

- Views learning and life's experiences through the lens of information that has eternal value
- Understands that all traditional and non-traditional learning is to contribute to and combined with understanding from those principles that govern life from the biblical worldview

Non-Discrimination Policy

NFC Academy does not discriminate on the basis of race, color, national, or ethnic origin in the administration of any of its policies or programs. Admission is contingent on space, abilities of the student, philosophy, and willingness of the family to participate within the school guidelines.

Parents Web

RenWeb is our web-based program which places all of our school administrative functions in one software package and gives parents and students many added benefits through the on-line grade book, school directory, account information and much more. ParentsWeb is a private, secure site that allows parents to see complete information specific to their child. Once enrolled in NFC Academy parents will be given the necessary instructions and password needed to set-up their own RenWeb account. This parent access is different from your Ignitia parent portal.

Records

All school records for students are under the control of the school administration. Student's records are available for inspection by the legal parent/guardian. No student's school records are available to any third party without the written authorization of both the student's legal parent/guardian and the administration of NFC Academy.

States

Each state enacts its own legislation which covers elementary and secondary education. Some states may recognize distance education as being "home schooling," while others may classify differently. It is the responsibility of each parent to comply with any state requirements for enrollment in NFC Academy.

Supervision

Upon enrollment there must be selected a home supervisor for the student(s). The home supervisor is typically the parent. On some occasions the at home teacher may be someone different than the parent, although selected by the parents. It is recommended that parents check any state requirements for the selection. NFC Academy must approve the at-home supervisor.

Teacher Certification

Teachers at NFC Academy hold degrees in their subject areas and are professionally certified teachers by the Florida Association of Christian Colleges and Schools (FACCS/IACCS), or another certifying body, or hold the proper educational credentials to teach the assigned subjects. The teacher along with the homeschool-based parent/teacher has the responsibility for the academic progression of each student in the Homeschool Advantage Program. While NFC Academy teachers in the Homeschool Advantage Program work to ensure academic progress, the parents in the home have a necessary part to ensure students work daily and are completing assigned lessons each day as due.

Technical Support

Technical support can be accessed through the toll free phone number during regular business hours of 7 AM to 5 PM Central Time, Monday-Friday. Requests over the weekend will be handled the next business day. There are several ways that students and parents can resolve technical issues:

- Ignitia Technical Support - Contact the support team by phone: 877- 251-6662. Technical Support is available Monday – Friday 7 AM – 5 PM CT.

Technology Requirements

NFC Academy technology department may be able to solve your questions through the initial training seminar that will be conducted with you on-line in our NFC Academy Webinar. Access and assistance with both the Learning Management System and the Teacher/Student Communication System will be addressed as needed.

The basic technical requirements are given below:

- PC or Mac, laptops or desktops;
- High speed broadband or cable connection; dial-up connections will not work

Topic	Recommendation	Settings	Notes
Browser	Mozilla Firefox	Version 3.x	Firefox responds best to SOS
Browser	Explorer	Version 7 or higher	SOS does not support Windows 2000 or Vista
Browser	MAC - Mozilla Firefox/Safari	Version 3. x	
Multimedia	Adobe Flash	Version 9.x or higher	SOS will not display videos or other media if Flash is not installed properly
Applets	Java Runtime	Version 1.6.0 x	SOS requires this for buttons and menus to function properly
PDF Reader	Adobe Acrobat	Version 9.x	Reports are generated as PDF file.
Caching	Turn off or modify at workstation	Set caching to -0- or lowest possible	Browser caching can cause lost work if the page is refreshed during the time the student has the lesson open.
Popup	Set popup blockers to allow windows from the SOS site		SOS uses popup windows for the "Translate" and "Reference" feature.

Admissions

Entrance Guideline for Admissions

These guide lines are to help guide parents on ages that are normally expected in a traditional school

Grade Level	Minimum Age	Maximum Age
3 rd	8 on or before Sept. 1	No older than 9 on Sept. 1
4 th	9 on or before Sept. 1	No older than 10 on Sept. 1
5 th	10 on or before Sept. 1	No older than 11 on Sept. 1
6 th	11 on or before Sept. 1	No older than 12 on Sept. 1
7 th	12 on or before Sept. 1	No older than 13 on Sept. 1
8 th	13 on or before Sept. 1	No older than 14 on Sept. 1
9 th	14 on or before Sept. 1	No older than 15 on Sept. 1
10 th	15 on or before Sept. 1	No older than 16 on Sept. 1
11 th	16 on or before Sept. 1	No older than 17 on Sept. 1
12 th	17 on or before Sept. 1	No older than 18 on Sept. 1

Entrance Placement

For students entering grade 3-9 entrance placement can be made using previous report cards and standardized achievement testing results. Acceptable standardized tests would be norm referenced tests such as Stanford 10, CAT, and other similar widely accepted test results. Typical state constructed tests do not meet the criteria for placement evaluation.

Students entering after the beginning of the 9th grade year will be evaluated on the above criteria and the review of their high school transcript.

Any student who does not have the most recent year of standardized testing results available may need to take a diagnostic test in the language arts and math sections.

When all records are complete along with any possible required interviews, students may be accepted into the school. If records indicated a significant academic problem, the student may be accepted provisionally. Once a student demonstrates the ability to be successful at NFC Academy the provisional status will be lifted. If the student is not able to be successful at NFC Academy another school placement will be recommended.

Full-Time Students

Full-time students at NFC Academy High School attend the high school program of study with the intent to graduate and receive their high school diploma from NFC Academy. Full-time students are taking 5-6 courses per semester of study.

The following materials are necessary for a full-time enrollment status:

- Application for Admissions (completed on-line)
- Birth certificate
- Enrollment Agreement signed by parent (on-line)
- Release of Transcript form signed by parents
- Official transcripts and other school information
- Payment of the non-refundable registration fee of \$100 (on-line)

NFC Academy requires a GPA to begin at NFC Academy of 2.0 which is a “C” or better. Applicants with a GPA below a 2.0 may request a waiver of required 2.0. Any waiver given will place the student on Academic Probation and require a Performance Agreement Contract for the student. Students will be released from probation after the completion of a successful first semester with maintaining a minimum of a 2.0 in course work of that semester.

A student must have a minimum of a 2.0 to graduate from NFC Academy and a student may be asked to leave the Academy if they do not get their overall average to a 2.0 by the first semester of their senior year.

International Students

NFC Academy is available to International students. Applicants should be proficient in English prior to enrollment in NFC Academy. Proficiency can be demonstrated by:

- Successful completion from an English speaking school for the year immediately preceding enrollment in NFC Academy.
- Successful completion within the past two years of an approved standardized English proficiency from a standard English speaking test

Non-High School Aged Students

Students who do not fall with the general guidelines for high school aged students:

- 14-15 for 9th grade
- 15-16 for 10th grade
- 16-17 for 11th grade
- 17-18 for 12th grade

Students older than 18 years may be admitted to NFC Academy for individual courses. Students older than 18 years considered as “adult-aged” students may be eligible to take high school courses through the NFC Academy program toward a diploma.

Part-Time Students

NFC Academy students who are part-time are enrolled in another home school or school system and taking courses that are to fit into that program for graduation. Part-time students take typically two (2) or more courses, but may take a minimum of one (1) course.

Part-time students should first get their NFC Academy course approved as being accepted by their school program before they register and begin taking the course. Our Guidance

Department will be available to supply needed information to an official request for course information.

The following materials are required for part-time students for enrollment:

- Application for Admissions (on-line)
- Enrollment Agreement signed by parent (on-line)
- Payment of non-refundable registration fee depending on the number of courses.

Transfer Credits (*Schools and Homeschools*):

Accredited Schools

All students transferring to NFC Academy will have all high school credits transferred when coming from another regionally accredited school. The credits must appear on an original of the school's transcript presented to NFC Academy. Credits earned at non-accredited high schools will be evaluated on an individual basis. NFC Academy recognizes all regional accreditation associations, The Association of Christian Schools International (ACSI), the International Association of Christian Colleges and Schools (IACCS), the Florida Association of Christian Colleges and Schools (FACCS), and other associations with accreditation protocols with the National Council for Private School Accreditation (NCPSA).

Homeschools

Transcript grades earned by a home school student will be recognized and awarded if the student's transcript is from an accredited Christian/Private school that has a home school umbrella program. If a student is registered with a local home school association and the association regulates testing and provides an official transcript, the transcript may be recognized at the time of transfer.

If the conditions above are not met, a portfolio assessment will be used to determine acceptance and placement of the student. This includes documentation provided to NFC Academy from the parent. Documentation must include:

- Curriculum used (names of text and publisher per grade level)
- Daily Lesson Plans
- Assessment/Evaluation - daily quizzes, weekly and quarterly tests, book reports, term papers, projects
- Annual achievement testing scores (Stanford, Iowa Basic Skills, etc.)

Transfers Beginning a Semester

Students will begin and complete all work for a course when starting a new semester at NFC Academy.

Transfers during a Semester

Students who transfer to NFC Academy during a semester will have their work evaluated according to the Academy's policy related to accreditation and homeschool evaluations. Students may be given credit for work completed at their previous school for the given period of time spent during a current ongoing semester of work when the work appears on the student's transcript with grades recorded and attendance verified. NFC Academy does not accept students in the middle of a semester who are not completing the next full semester.

Academics

Academic Advising

Academic advising services are provided by the NFC Academy trained staff by phone, WebEx live Webinars, email, and in person at our campus.

When a high school student is admitted to NFC Academy as full-time student seeking a diploma, their transcripts are evaluated by the Guidance staff and a program of study is developed based upon conversations with the family/student. The diploma requirements are those required by the State of Florida and meet the standards by our accrediting agencies, the Middle States Commission on Secondary Schools and the Florida Association of Christian Colleges and School. Typical high school graduation requirements are consistent between states and generally include the following:

- English – 4 years of study
- History – 3 years of study with required subjects of World History, American History, and American Government and Economics.
- Math – 4 years of study with required courses in Algebra I, Geometry, and for many Algebra II
- Science – 3 years of study with a required course in Biology
- Physical Education and Health
- Performing Arts and Practical Arts – 1 year consisting of courses like Speech and Business Computer Applications or similar courses to fit the two categories.
- World Languages – 2 years of the same language. A college preparatory requirement, but not required for graduation from high school.
- Bible – 1 course each year a student at NFC Academy

Academic Probation

In grades 6-12, a student will be placed on Academic Probation when the cumulative GPA falls below a 2.0 at the end of any term. The NFC Academy Guidance Department will conduct a meeting with the student and parent outlining the expectations for future work which will require the grades to be raised to a minimum of a 2.0 GPA. These meetings will be over the phone or via email.

Achievement Tests

Students in grades 9-12 will take the Stanford Achievement Test Online Edition in April of each year. This test will meet many state requirements for standardized testing.

Attendance

The most successful online students are self-motivated and use a system to manage their time with a defined schedule that meets the goals of the student and family schedule. Student courses are conducted asynchronously. Some teacher may through our Webinar capability conduct live synchronous learning with a group of students.

All assignments and unit work must be completed by students and no work is skipped which is a part of the course outline and assignments as given by the instructor. When a student is to be out for a period of time (days) they should notify their instructor. Students will be temporarily suspended from a course if they are not making regular progress in their program. The meeting with the Academy administration will be to find a solution to help the student in their daily work schedule.

The learning software tracks the time the student spends online working on the assignments. This tool provides information to the instructor of the participation/attendance so an accurate means of assessment in this area can be measured. Attendance can be measured in several areas of the course:

- Active engagement online in the daily lessons and exercises
- Regular submission of classroom assignments and unit completion work
- Successful completion of quizzes and tests
- The timely completion and submission of projects and other assignments online.

College Counseling

The trained staff at NFC Academy will provide our students with college counseling support that helps them in preparing to enter the college of their choice. Counseling involves ensuring that the high school program meets the goals established by the student and family to enter college. Like the educational program, the college counseling program seeks to meet the needs in each student's life including spiritual, academic, and professional goals. Areas that can be included are the application process, financial aid, career selection along with other areas which may be unique to a specific college or university. It is always recommended that the student know what the college they select requires and communicate all information to their college counselor at the Academy.

Course Information

NFC Academy courses are college preparatory courses on the high school level which include all of the core academic disciplines. All courses have been aligned with the appropriate course code by the State of Florida Department of Education. Courses utilize the foundational material delivered using the Internet as well as other required books and materials to complete the course. All material required to complete a course is given to the student by their teacher in their designed course syllabi. The course syllabi contain the assignments necessary for the student to interact with their teacher to be successful learners. Courses will comprise portions of the following:

- Course assignments for each semester as determined by the instructor

- Required and recommended books for reading and other course completion.
- Participation and individual or group assignments.
- Course projects/essays/reports to demonstrate a mastery of materials and allows the students to demonstrate essential critical thinking and applications skills.
- Available engagement using software as Electronic White Board and live instruction assessment with the instructor in each unit of study.

Course Materials

Most of the course materials will be provided over the Internet through the course program much like the textbooks provides for the “brick and mortar” school. Some courses will have additional books for reading and other supplemental materials. In some cases the supplemental materials may be available at no, or minimal costs. Students may also purchase e-books for those who have readers when materials are available. The instructor’s course syllabi will detail any supplemental books or texts recommended for the course. The instructor will offer you suggestions on where you may purchase any that are needed.

Course of Study

While a student’s course of study will reflect their own individual goals for study, working with our Guidance Department, a student’s typical course of study could look somewhat like the following in the college preparatory program. Course selections can be altered based upon some students earning advanced credit in 8th grade. Students who transfer to NFC Academy during or after the 9th grade year may have a course of study that is different based upon their courses transferred from their previous school.

Freshman Courses – 9th Grade

Bible – New Testament
 English I
 Algebra I
 Earth Science
 Essentials of Communication (Speech) ½ / Business Computer Information Systems ½
 Physical Fitness ½ / High School Health ½

Sophomore Courses - 10th Grade

Bible – Old Testament
 English II
 Geometry
 Biology
 World History
 Spanish I

Junior Courses – 11th Grade

Bible Doctrine
 English III
 Algebra II
 American History
 Chemistry, or other science
 Spanish II

Senior Courses 12th Grade

Bible – Christian Faith and Living
English IV
Pre-Calculus, or math elective
Government & Economics
Physics, or other science of general elective

Dropping a Course

Students who drop a course by end of the first week of the assigned work will do so without academic penalty on their transcript. The W will not have a negative effect on their GPA. Parents should review the financial section regarding the withdrawal from a course to determine if there is any financial penalty. Dropping a course is not the same as withdrawing from the Academy. Students who drop a course after the 4th week of work will receive an “F” which will have a negative effect on their GPA.

Dual Enrollment

After completion of the tenth grade year, students in some areas have the opportunity to take classes at a local junior college or regular college/university in Dual Enrollment. Students are encouraged to check with their local higher education system to investigate options that may be available to them in dual enrollment.

NFC Academy has established a program for Dual Enrollment with Northwestern College in Orange City, Iowa. Details of the offerings can be found on the NFC Academy web site under Dual Enrollment. Please visit the site to see the courses offered each semester this option is available.

In most instances the student will earn credit on both the high school and the college level. Before enrolling in a dual enrollment course a NFC Academy student must secure the permission of our Guidance Department to ensure the course will meet any core requirements needed to graduate.

Elective

Students not pursuing a college preparatory program may substitute electives for the foreign language requirement and the higher level math requirements, however 4 math credits are required for graduation thus a student not pursuing a college preparatory program would substitute other math courses for the higher level math courses. Additional substitutes may be made in the science program for Chemistry and Physics for those not in the college preparatory program.

Grading, Grades, and Credits

NFC Academy has an established grading policy that conforms to the State of Florida grading scale and meets the standards of our accrediting agencies, the Middle States Commission on Colleges and Schools and the Florida Association of Christian Colleges and Schools. As an accredited school credits earned at NFC Academy are accepted by other accredited schools if a student must transfer.

Each unit is assigned weighted totals as typically one-tenth of the yearly average for courses with 10 units and one-twelfth for courses with 12 units. If the course is a semester long then the results are calculated using the semester requirements of typically 5 or 6 units.

Grading of courses is as follows:

All Regular Courses**Grades 9-12 – English, Science, History, Math Honors**

Lessons	30%	Lessons	30%
Quizzes	25%	Quizzes	20%
Projects	15%	Projects	25%
Tests	30%	Tests	25%

Courses that do not have projects will have that percent mathematically divided and assigned to the other grades areas evenly.

Graduation Checklist

Each full-time student entering the high school will have a *Graduation Checklist* when they begin their studies. This document will give information to both the student and parents that will guide them through their high school years. The Checklist will have the required courses for graduation along with electives available to the student.

Graduation Requirements Planning Tool (*College Preparatory*)

High School Subject Area	NFC Academy Program	State of Florida
English	Four Years Required	Four Years Required
Mathematics	Four Years (<i>Algebra I, Geometry, Algebra II</i>)	Four Years (<i>Algebra I, Geometry, Algebra II</i>)
Social Studies	Three Years (<i>World History, American History, Government and Economics</i>)	Three Years (<i>World History, American History, Government and Economics</i>)
Science	Three Years (<i>Biology, 2 Other Science</i>)	Three Years (<i>Biology, 2 Other Science</i>)
Foreign Language	Two Years Same Language for College Preparatory	Two Years Same Language for College Preparatory
Practical/Performing Arts	One-Half Year Each (<i>Speech/Business Computers or Similar</i>)	One-Half Year Each (<i>Speech/Business Computers or Similar</i>)
Physical Education/Health	One-Half Year Each	One-Half Year Each
Bible	One Year for Each Year at NFC Academy	One Year for Each Year at NFC Academy

Graduation Requirements

NFC Academy offers a college preparatory curriculum. Since each college establishes its own entrance requirements it is recommended that families check with colleges of their choice to

ensure their child is taking the best choices especially in the area of electives.

Students graduating from NFC Academy must have been a full time student at NFC Academy at least their full senior year taking a full load. Seniors are not admitted to the Academy whose GPA is below 2.0.

Incomplete Grade

An incomplete grade will be recorded at the end of the designate semester if the student has not completed the work. The student may request an extension to complete the required work. If all work in a course is not completed, credit will not be awarded and a grade of "F" will be recorded.

Individual Academic Progress

Academy high school courses will take a student the typical semester to complete which will include time on the computer, research time, study time in preparation for graded assignments, and time to complete writing of reports, essays, projects, and science experiments. Students who may appear to be completing a course in a time inconsistent with the typical progress will result in the administration doing research to determine if the student is completing the work in an acceptable fashion.

Online Library (*Questia and Britannica*)

All NFC Academy students in grades 7-12 have the *Questia* on-line system, Britannica On-Line, plus an array of other on-line sites for research available for their use. Students are given a password at the beginning of the year and may use this research tool anywhere they have Internet access. *Questia* is a comprehensive on-line library of books and research information allowing the student to create his/her own holdings of books for various projects.

Recommended Progression of Math Courses

CURRENT COURSE	AVERAGE GRADE	NEXT COURSE
Pre-Algebra	A,B,C,D	Algebra I
	D,F	Repeat Pre-Algebra
Algebra I	A,B,C,D	Geometry
	D,F	Repeat Algebra I
Geometry	A,B,C,D	Algebra II
	D,F	Repeat Geometry
	A,B	Pre-Calculus
Algebra II	B,C,D	Consumer Math
	D,F	Repeat Algebra II
	A,B	College Algebra (dual enroll)
Pre-Calculus	A, B	College Algebra (dual enroll)

	C,D	Trigonometry
	D,F	Repeat Pre-Calculus

Repeating/Replacing Grades

Students may choose to replace any grade by repeating the course. The grade recorded will be for the course the student scored the highest. The other course will remain on the transcript, but the grade will not be counted in the students cumulative GPA. For students who transfer to the Academy their transcript will be treated exactly as it is delivered to the Academy if a student repeated a course at the previous school and both grades remain on the transcript.

Report Cards

Report cards for each semester will be issued and sent to the student via email as the course is completed.

Science Virtual Labs

Students from grades 6-12 will have virtual labs in place of most lab requirements. Grades 6-12 will have labs from Smart Science, a virtual lab supplier, and students taking Biology, Chemistry, and Physics will have their virtual labs from Late Nite Labs. Students assigned to Smart Science Labs in 6th, 7th, 8th, and Earth Science will have the lab fee of \$10 annually added to their statement soon after starting their courses. Students enrolling in Late Nite Labs for Biology, Chemistry, and Physics must register directly with Late Nite Labs and pay their annual lab fee of around \$40.

Unit Instruction and Assessment

Each student taking courses in the high school for credit will meet with their teacher for live assessments and instruction as determined by the teacher or requested by the student. Live meetings can occur through pre-arranged phone calls, scheduled WebEx conferencing, or live course discussion in the NFC Academy Class Discussion Program. Students scoring below the grade of a 70 in any unit of work must have this assessment with the teacher before a test can be authorized by the teacher. During this session the teacher may reassign work to be completed as determined in the Unit Instruction and Assessment meeting.

Student Participation Requirements

All NFC Academy high school courses are academically sound requiring student participation preparing the student for college. The following will ensure that each student has the best opportunity for success:

1. Each course is designed to be the equivalent or exceed the same course instructional work completed by a student in a “brick and mortar” school. The State of Florida requires 150 clock hours of instructional work time for each high school course and the NFC Academy courses are designed to meet that standard.
2. Students should submit assignments to their instructor according the schedule provided by the instructor in the course syllabi which is provided when each course is started.
3. Students must log-in regularly to the course materials and show continued participation of completing assignments, projects, assessments of quizzes and tests, and discussion with their teachers using email, WebEx, and other communication tools.
4. Students will meet with their teacher live during each unit’s work if determined by the teacher as necessary. Students will work together with their teacher to schedule live

instructional assessments. Unit tests will not be authorized until a Unit Instructional Assessment and Review has been completed and any resulting work completed as determined by the teacher.

5. Making Adequate Academic Progress by the student includes completing work as scheduled, responding to all contacts by the teacher, and satisfactorily scoring the minimum of a -70- in their work.
6. Students must complete their own work and maintain the NFC Academy Honor Code which does not permit any form of cheating which could include others giving unauthorized assistance on assessments, projects, and other noted materials by the instructor.
7. Some students may have certain times they take off for family and other significant events. The students must notify their teacher in advance of such absences giving the time off and time to return to work. Depending upon the length of absence the teacher will provide the student with any adjustments for the participation schedule that would be needed.

Each student's regular participation is a part of the permanent academic record and may be requested by another school if the student transfers, a college or university to verify satisfactory participation and completion of all course requirements. Each student's participation should evidence the following:

- Continued and regular participation in the course following the schedule for completing assignments as developed and assigned through the teachers.
- Completion of all course requirements including assignments, assessments, discussions, and projects
- Completion of all assigned units and those requirements.

Conduct

Academic Dishonesty

Academic dishonesty includes cheating, plagiarism, and any attempt to obtain credit for academic work through fraudulent, deceptive, or dishonest means.

Plagiarism will be defined as student submission of any written work (essay, book report, project, research paper, or report of any kind) that is copied word for word from another source and presented as his or her own work. It includes any written work that has been summarized into the student's own words without proper citation and/or bibliographical information giving credit to the source of the material. Any student that is discovered to be plagiarizing will be in violation of the NFC Academy Student Honor Code.

Academic dishonesty could include using or attempting to use unauthorized materials, information, or study aids in any academic exercise. Submitting work previously submitted for another course without the consent of the instructor. Sitting for an examination by someone other than the registered student would be considered a violation of the Honor Code of Conduct.

The penalty for plagiarism for the first time is a -0- on the assignment and the assignment must then be completed satisfactorily with no credit given. A second offence of plagiarism will be referred to the Administration and the results could range from a -0- and complete the work to dismissal from the Academy.

Code of Conduct

In any setting honorable conduct is expected and should be the goal of every member. It is expected that all students and members of the NFC Academy community will conduct themselves in such a way as to be clearly honorable ensuring only they complete their work and all other such conduct situations. Students are expected to abide by all Academy policies and regulations. Any form of academic dishonesty, or inappropriate conduct by students or applicants may result in penalties ranging from warning to dismissal determined by the NFC Academy.

Internet and Technology Use

NFC Academy believes that the benefits afforded to educators and students from access to the Internet far exceed any disadvantages. However, the Internet and other online tools present the opportunity for abuse and improper use. It is our responsibility to ensure that Academy instructors and staff use the tools appropriately, and it is the parents' and students' responsibility to ensure that their use meets the standards of respect and appropriateness. Anyone using the NFC Academy tools for online learning inappropriately as determined by the Academy is subject to disciplinary action.

Students are responsible for good behavior on the Academy's network. Students must always show consideration and respect when participating in Academy classes and using Academy online tools. Obscene, threatening, or profane language will not be tolerated.

Financial Information – 2013-14

Course Extension Policy

If a student is unable to complete a course by the designated enrollment end date, an extension on the enrollment period may be requested. The Guidance Department will review the request and make the approval if the student has demonstrated consistent work during the previous weeks of enrollment. There is an additional charge for services when an extension is granted that correspondence generally to the monthly payment plan.

Dropping a Course

If a part-time student drops a course between 1 and 10 days after the enrollment start date, 30% of the tuition cost remains due. A part-time or full-time student may withdraw from a course within 10 days of the start date and with the approval of the Academy Guidance Department begin another course in the same academic discipline with no financial penalty. This section on dropping a course is different from withdrawing and assumes the student remains a student at the Academy.

Financial Policy

If you find a particular month you will need extra time for a tuition payment contact the NFC Academy Business Office for an Exception Application. After the *Exception Application* is submitted to the Business Office the financial committee will review the request and notify you of their decision.

Refund/Withdrawal Policy

If a student withdraws from school between 1 and 10 days after the enrollment start date, **30%** of the tuition cost remains due. All fees are non-refundable, with the exception of tuition. If the student's request to withdrawal occurs after 10 days of enrollment, no refund is available and all unpaid balances are due immediately.

Returned Checks

A returned check charge will be incurred each time a check is returned due to insufficient funds. A \$25.00 fee will be charged for all returned checks.

Starting Classes

For billing purposes students officially start classes on the 1st or the 15th of the month. If student enrollment occurs and students begin class work between the 1st and 14th of the month the first billing occurs that month, if the student starts classes on the 15th or after the billing begins the 1st of the next month.

Tuition Cost

NFC Academy Homeschool Advantage Edition <i>(Grades 8-12)</i>	
Annual Cost <i>(6 subjects)</i>	\$1625.00
Monthly Cost <i>(10 payments)</i>	\$169.00
Additional 7th Course <i>(Full-time students)</i>	\$120.00
Part Time Students Courses	\$340.00
Honor's Courses <i>(Additional cost per course)</i>	\$65.00 <i>(per year per course)</i>
Registration <i>(Non-refundable)</i>	\$100.00
Registration <i>(Part time students - Non-refundable)</i>	\$25.00 <i>(per course-\$75 maximum)</i>

Tuition Grades 3-12

Home School Advantage Edition at NFC Academy includes the NFC Academy as the teacher of the courses engaging the students in an active and collaborative learning experience. The teacher provides the assignments, all grading of tests (subjective questions) and projects. Academy teachers engage the learners through WebEx conferences and the NFC Academy Class Discussion Program, direct email, phone calls and other electronic tools used to communicate and provide instruction. Additionally the program includes the following for all full-time and part-time students:

Tuition Payments

Tuition payments are due before the start date of classes at NFC Academy. Tuition payments can be made on-line using the RenWeb parent software program using either the credit card payment option of the e-check option. Checks or money orders may be mailed directly to NFC Academy using the following address:

NFC Academy

Business Office
3000 N. Meridian Road
Tallahassee, FL 32312

All tuition accounts are maintained within the RenWeb software system accessible to parents online 24/7. Tuition accounts are billed from the 1st of each month and late after the 10th of the month due. A late fee of \$25 is charged when the account is not paid by the 10th of the month due.
