**Section 1****CHRISTIAN FAITH AND LIVING – UNIT 1: KNOWING YOURSELF  
KNOWING WHAT YOU ARE: GOD'S CREATION****WHAT YOU ARE**

Self-understanding is the foundation upon which intelligent *career* decisions are built. Successful people learn to utilize their strengths and compensate for their weaknesses. This prayer expresses a healthy attitude toward one's self:

*"God grant me the courage to change the things I can, the serenity to accept the things I cannot, and the wisdom to know the difference."*

The ultimate source of truth about ourselves is God's Word, the Bible. It reveals how our Creator views us, as we really are. A Christian has the advantage of receiving an accurate view of himself and others. A secondary source for information is the social sciences, including sociology (the study of society and human groups) and psychology (mind and human behavior). Observant people can discover much about themselves and others on their own, and those people with whom we associate can show us how we affect them.

Here is your goal for this lesson:

- Describe what God has given man in creation and salvation.
